

Northeast Ohio Concrete Flatwork Training & Certification

Mark your calendar and plan to attend the Northeast Ohio Concrete Flatwork Training & Certification on Thursday, December 10, 2009 at the Blue Heron Banquet & Conference Center in Medina, OH.

Learn from professionals in the field about the proper techniques and practices for placing and finishing concrete flatwork.

Topics will include: Concrete Fundamentals, Base preparation and forming; How/what mix to order; Placing and finishing interior and exterior concrete; Jointing; Curing; Sealing; Defects and repair and more

The program will begin at 7:00 am with registration. The program will be divided into two sessions. Attendees seeking residential concrete flatwork certification can register for Session 1. Session 1 will begin at 7:30 a.m. and conclude at 11:30 a.m. Lunch will be provided at 11:30 a.m.

Session 1 is intended for the residential concrete contractor, project superintendent/foreman, and building officials to educate and promote proper flatwork placements.

Attendees looking to obtain ACI Concrete Flatwork Finisher and/or Technician certification can register for Session 1 and Session 2 and obtain their certification for a special price.

After lunch at 12:30 p.m., Session 2 will continue from Session 1 to provide a basis for certifying experienced concrete finishers including commercial/industrial requirements of concrete finishes.

Session 2 is intended to alleviate misunderstandings related to proper field practices, increase owner satisfaction with concrete construction and prepare the concrete industry for future specifications that require certification of flatwork finishers.

Individuals successfully completing the examination requirements will achieve certification from the American Concrete Institute (ACI) as an ACI Concrete Flatwork Finisher and will receive a certificate, wallet card and hard hat sticker. Individuals who pass the written examination, but have not satisfied the performance (work experience) evaluation requirement, will be granted certification as an ACI Concrete Flatwork Technician. Certification as a Concrete Flatwork Finisher or Concrete Flatwork Technician is valid for 5 years.

Exams for both sessions will be given at the end of each session. The program will conclude at 5:00 p.m.

Course Fees:

Session 1 - Residential Concrete Flatwork Early Bird (11/10/09): \$75 without jacket* and \$125 with jacket*

Regular (after 11/10/09): \$100 without jacket* and \$150 with jacket* Both fees include a \$25 credit toward 2010 Ohio Concrete/ORMCA membership dues

Session 2 - ACI Concrete Flatwork Finisher/Technician Certification
SPECIAL - Add \$175 to above pricing

*Upon successful completion of the residential concrete flatwork certification program, participants are eligible to receive a certified finishers work jacket
